PROJECT WORK

- **Text Editor** in C: designed, coded and tested a line text editor (like *ed*) with some functions, such as delete, print, change, undo and redo.
- **Histogram Equalization Machine** in VHDL: coded a hardware component that uses an equalization algorithm to recalibrate the contrast of an image.
- **Videogame** in Java: designed, developed in a group of three and tested (with JUnit) an online videogame inspired by the physical boardgame "*Master of Renaissance*".
- **PC Configuration Telegram Bot** in Python: created a Telegram bot for a client who contacted me on Fiverr.com, a freelance services marketplace. The bot helps people to configure a PC with all required components.
- **TelCo WebApp** in Java/MySQL/HTML: coded a website that simulates a telecommunication company that creates packages to sell to customers.

WORK EXPERIENCES

- **Private Lessons Teacher** (*Milan, Italy*): I help some students in studying scientific subjects (Mathematics, Physics and Informatics) once a week.
Apr 2016 – June 2022
- **Isimac Srl** (*Vittuone, Milan, Italy*): I was in charge of ordering the warehouse and preparing orders.
Sep 2017 – Dec 2019
- **Starpizza.org** (*Milan, Italy*): I was the person in charge of managing the ecommerce section of the website.
July 2017 – Aug 2017
